

### God's Wisdom for the World

Thomas Freeman  
Teacher, Ethnos360, Waukesha  
Proverbs 8:22-36

#### Case Study, Ethnos360

Ethnos360 realizes that everyone has a worldview that walls them in. Their worldview contains default beliefs, ranging from the creation of the world to the afterlife.

To best bring God's Wisdom to them, we know that we must scale their cities and bring down the strongholds they trust in. Ethnos360 provides an extensive training program built around these principles to help you train and send missionaries. We train your missionaries to:

1. Teach the Biblical Story so unreached have a basis to compare God's Wisdom to their worldview.
2. Learn the language, culture and worldview of the unreached so they can persuasively present God's Wisdom.
3. Translate and teach the unreached to study God's Wisdom for themselves.

#### THE ONE THING:

Engage the world with God's Wisdom

## 1 KEEPING IT REAL

Which is more intimidating: sharing the gospel with people you know here, or sharing it with strangers somewhere else? Why?

## 2 LOOK AT THE BOOK

Read John 4:39-42 and John 9:24-33. How did these two people share their faith? What was the basis of that sharing? What was the response? What has Jesus done in your life that you could share?

3 Consider what Paul says about his experience sharing the gospel in 1 Corinthians 2:1-5 and 3:5-6. What was the focus of and power behind his testimony? What gave him the confidence to share what he knew? Who is responsible for the results?

## 4 THE NEXT STEP

What help, preparation or encouragement do you need to do your part in taking the gospel to your family, friends, neighbors and coworkers? How will you pray about this?

### NEXT STEPS

- Memorize: Proverbs 11:30.
- Study Proverbs chapter 8. Consider what truths about God to study further.
- Pray God will help you better understand how God's Wisdom would benefit the worldview of someone you know.
- Contact a foreign missionary. Encourage them for exercising true wisdom and commit to stand with them!
